

COVID Protocols

September 2022

- People who have symptoms of respiratory or gastrointestinal infections, such as cough, fever, sore throat, vomiting, or diarrhea, should stay home
 - Testing for COVID-19 is recommended for people as soon as possible after symptoms begin

- If you test positive for COVID-19, stay home for at least 5 calendar days and isolate from others
 - If you don't have symptoms:
 - Day 0 is the day you were tested (not the day you received your positive test result)
 - Day 1 is the first full day following the day you were tested
 - If you have symptoms:
 - Day 0 of isolation is the day of symptom onset, regardless of when you tested positive
 - Day 1 is the first full day after the day your symptoms started

- Contact the school nurse with confirmed positive COVID-19 cases
 - Primary Center - (570) 836-3111 ext. 1307
 - Intermediate Center/STEM Academy - (570) 836-3111 ext. 1104
 - High School - (570) 836-3111 ext. 1222

- You may end isolation after day 5 if:
 - You are fever-free for 24 hours (without the use of fever-reducing medication)

- Once isolation has ended, people should wear a well-fitting mask around others through day 10

- Regardless of vaccination status, quarantine of close contacts is no longer required, even if within the same household
