Draft

Purpose

The Board shall operate district schools for the benefit of students residing in this district who are eligible for attendance.[1][2][3]

Authority

The Board may permit the admission of nonresident students in accordance with Board policy.[4][5][6]

The Board shall require that appropriate legal documentation showing dependency or guardianship or a sworn statement of full residential support be filed with the Board Secretary before an eligible nonresident student may be accepted as a student in district schools. The Board may require a resident to submit additional, reasonable information to substantiate a sworn statement, in accordance with guidelines issued by the Department of Education.[7][8]

The Board reserves the right to verify claims of residency, dependency and guardianship and to remove from school attendance a nonresident student whose claim is invalid.[Z]

If information contained in the sworn statement of residential support is found to be false, the student shall be removed from school after notice is given of an opportunity to appeal the student's removal, in accordance with Board policy.[Z][9]

The Board shall not be responsible for transportation to or from school for any nonresident student residing outside school district boundaries.

Tuition rates shall be determined annually in accordance with law. Tuition shall be charged monthly, in advance of attendance.[5][10][11]

Guidelines

Nonresident Children Placed In Resident's Home

Any child placed in the home of a district resident by a court or government agency shall be admitted to district schools and shall receive the same benefits and be subject to the same responsibilities as resident children.[12]

Residents Of Institutions

A child who is living in or assigned to a facility or institution for the care or training of children that is located within this district is not a legal resident of the district by such placement; but s/he shall be admitted to district schools, and a charge shall be made for tuition in accordance with law.[13][14][15][16][17][18]

Prospective Residents

A student eligible for attendance whose parent/guardian has executed a contract to buy, build or rent a residence in this district for occupancy within three (3) months may be enrolled without payment of tuition at the beginning of the school year, provided that the anticipated date of residency is not later than December 1 of the same school year.[5]

Parents/Guardians of students who claim admission on the basis of future residency shall be required to demonstrate proof of the anticipated residency.

Former Residents

Regularly enrolled students whose parents/guardians have moved out of the school district may be permitted to finish the semester without payment of tuition, provided that the student is in the 12th grade and the parents/guardians move from the district during the six (6) months immediately previous to the end of the school year.[5]

Regularly enrolled students whose parents/guardians move out of the district any time during the last marking period of the year shall be allowed to continue without payment of tuition. The parents/guardians would be required to provide transportation for the student and the new district of residence must agree to the student finishing the school year at Tunkhannock.

Other Nonresident Students

A nonresident student may be admitted to district schools without payment of tuition where attendance is justified on the grounds that the student lives full-time and not just for the school year with district residents who have assumed legal dependency or guardianship or full residential support of the student.[Z][8]

The district shall immediately enroll homeless students, even if the student or parent/guardian is unable to produce the required documents, in accordance with Board policy, laws and regulations.
[19]

Nonresident Children of Employees

Children of nonresident employees may be admitted to the district without payment of tuition upon approval of the Superintendent. Nonresident employees must submit, in writing, an enrollment request and complete all required enrollment paperwork.

The Superintendent may deny admission of the children of nonresident employees if the district's educational facilities or programs are inadequate to meet the needs of the applicant, or when the present enrollment of students has reached capacity.

Delegation of Responsibility

The Superintendent or designee shall develop administrative procedures for the enrollment of nonresident students.

The Superintendent shall recommend to the Board for its approval the admission of qualified applicants.
